

Human Potential, Digitally Delivered

Virtual Community: Remote Collaboration for Business & Dev Teams

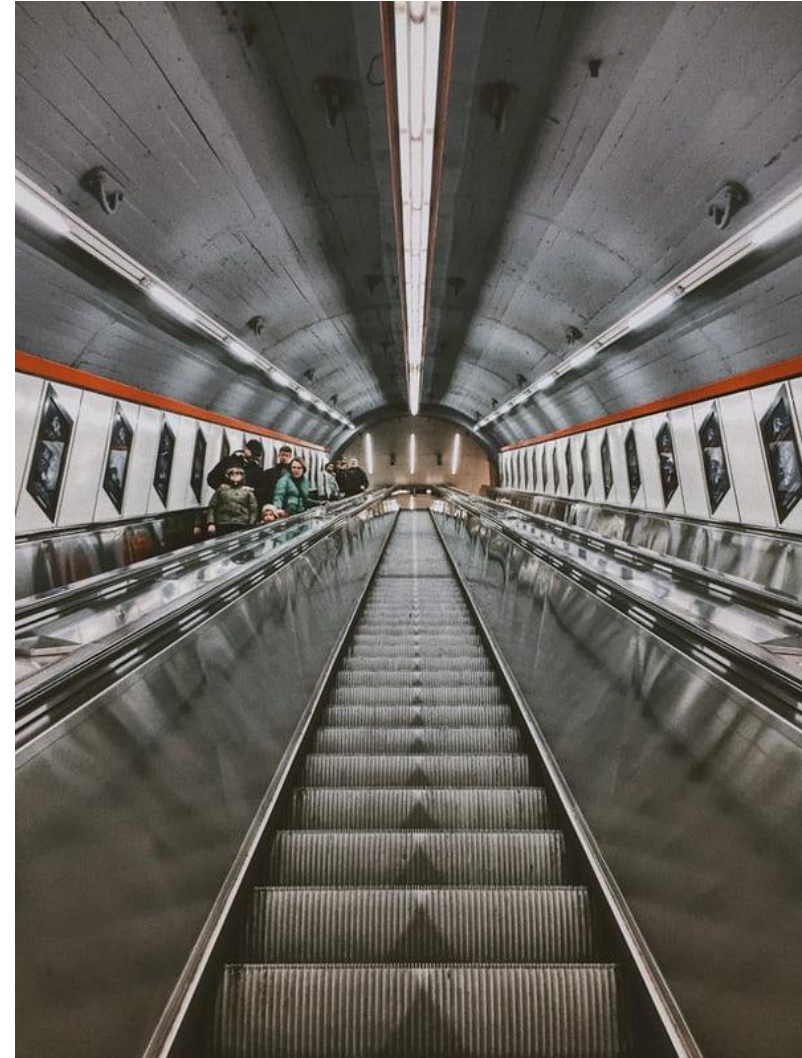

PRESENTED BY:
Quincy D. Jordan
Dan Neumann

Remote Collaboration for Business and Dev Teams

Why Should the Business & Dev Team Collaborate?

- Focus on solving the right problems
 - Expected delivery
 - Transparency
 - Build trust
-
- What two things can you start doing for one of the above mentioned items that you haven't been doing?
 - What do you think it will specifically help?

What are New Considerations When Remote?

- It's hard in person, it's harder when remote, why?
- Increase frequency of communication
 - Team health checks
 - Business health checks
- Better documentation, why?

Maintain Alignment

- Backlogs should compliment your OKRs (Objectives & Key Results)
- OKRs are reinforced in Sprint Reviews, Retrospectives, & Planning

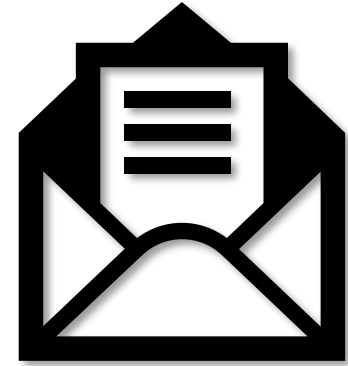

When to Include the Business on Dev Team Efforts During 100% Remote Work?

- Raise the flag sooner, why?
 - Risk to delivery
 - Changes in priority

Coming Up!

- Move to every two weeks
- Open Forum – June 25th ”AUA – Ask Us Anything Panel of Agile Consultants”
- <https://agilethought.com/library/>
